

## ENGLISH IN JUNIOR SCHOOL YEARS 5,6 & 7

In years 5-7 the study of English is all about enthusing students into exploring texts through a variety of mediums-aural, visual and written. Although we loosely follow the Literacy strategy we also provide our own hand picked resources to tailor the curriculum to our own needs. As well as working with fiction, non-fiction and media based texts we also ensure that all pupils receive a secure knowledge of grammar and the technical aspects of English.
